

CONVENIENCE

A FASTER, EASIER WAY TO REVIEW HISTORICAL INDEX ENTRIES

PUT YOUR SCANNED IMAGES TO BETTER USE WITH ALPHA INDEX, AND INTEGRATE THESE RECORDS WITH ACCLAIM! YOUR PUBLIC SEARCHERS WILL THANK YOU FOR THE TIME SAVING EASE OF ACCESS.

Scanning through historical records can be a slog for your users. Finding a specific name among a sea of pages can be a veritable "Where's Waldo" of Williams and Wendys when you're actually looking for the Samuels and Smiths. Users often spend far too much time scrolling through pages with only a rough idea of where to start. For this reason, Harris Recording Solutions is proud to offer **Alpha Index**, which brings searching your old books into the digital age.

Alpha Index is a method of adding value to your existing index search by accessing chronologically ordered index records. With Alpha Index, names are catalogued alphabetically to expedite searches for county workers and researchers alike. Title companies, abstractors and genealogical searchers who have a need to access these books can do so remotely by utilizing Alpha Index. In turn, this allows you to safeguard your original books under lock and key in your office or vault, thereby reducing the potential for damage to delicate media.

In Acclaim, users will be able to search by name, date, and book type.

User will then be taken to the desired digital index page from your scanned records.

GENERAL				INDEX			
No.	DATE	GRANTOR	GRANTEE	INSTRUMENT BOOK PAGE	No. of Pages	REMARKS	DISPOSITION OF PROPERTY
1880	July 1st	Wm. H. H. H.	Wm. H. H. H.	1 of 1	1	1880	1880
